Let’s go to Imaginopolis and the world of McZee! Creative Writer has all kinds of neat stickers, colors and sounds to add to your writing. You can work on everything from the alphabet to your first novel, and McZee will help you every step along the way! Let’s Go!

**Instructions:**
1. Click the Creative Writer icon in Windows.
2. McZee will ask you to sign in. Click *I’m new*.
3. Follow the instructions to log in. Click next when you want to move to the next screen.
4. Put your writing on C when McZee asks where you want to keep your work.
5. To exit Creative Writer just click the big whistle and then tell Spot you want to quit.

**Beginner:**
To get started go straight to the writing studio and experiment with all the different icons at the top of the page. You need to be sure you understand what the different objects do before you go any further, so ask McZee for help whenever you’re not sure. Create a page using some different sizes of type and stickers! When you’re done you can go on to the Good level or try and Adventure Task.

**Good:**
Go the the 4th Floor for some cool ideas! Pick out something from the splot machine and write a story or poem. Be sure and add some pictures or sounds! When you’re done go on to the Expert level or an Adventure Task.

**Expert:**
Make a card or a banner for a friend and then hurry on to the Adventure Task!

**With your partner decide which adventure activity you want to try in order to move on to another game...**

A. Create a Creative Writer book with instructions for all the commands!
B. Have you ever wanted to make your own comic book? Use Creative Writer to do it!
C. Make a card for a friend or penpal and send it out today!
